Metpro offer a 5-year warranty against their Conlok® product when installed with Metpro Hot Dip Galvanised (HDG) steel conduit tube to create a 'Conduit System'.

As the only fully galvanised conduit system available, this extended and limited warranty applies to Metpro® HDG steel conduit tube and Demon Cato® Conlok® ("System"), manufactured by Metpro Limited.

As detailed in this warranty, "Conlok and steel conduit tube system" means Metpro HDG steel conduit tube and accessories, and Demon Cato (A Metpro Brand) Conlok malleable boxes and accessories that are purchased together and used simultaneously.

Metpro warrants that the System is free from any lawful security interest and that for a five (5) year period from the original date of shipment, the System will be free of defects in materials and workmanship which arise under proper and normal service.

The Purchaser's exclusive remedy is limited to Metpro Limited's replacement of the non-conforming System (or non-conforming products therein) manufactured by Metpro Limited. The Purchaser will be solely responsible for all shipping, disassembly and re-installation expenses associated with the replaced System. Expressly excluded from this warranty are non-conformities arising from:

- (i) improper installation
- (ii) lack of proper inspection or maintenance
- (iii) inclusion of materials by other manufacturers
- (iv) usage not in accordance with the published ratings or standards.

The provisions of this warranty shall be applicable with respect to any product which Metpro Limited replaces pursuant to it. Any System non-conformance must be reported to Metpro Limited in reasonable written detail within the warranty period and the Purchaser must comply with Metpro's instructions regarding the return or disposal of any non-conforming products.
