Rollatray Installation Speed Test

Labour cost vs installation time

As more and more businesses adopt an online service offering leading to increased infrastructure demand, and the UK construction sector set to continue its upward trend for some time, on-site activities need to be as smooth and efficient as possible. With cable installations playing a huge part in this growth, Rollatray has been designed as a simple and fast solution which can cut downtime by up to 90%.

Case study:

Based on the installation of a 30-metre underfloor run using the products detailed below and labour costs for a JIB Approved Electrician with own transport - £17.70 per hour / £0.30 per min.

Using the traditional cable tray system, the average amount of time to cut, dress, combine and secure each 15mtr run is **1.6 hours (20 mins per length)**.

The 30-metre run was installed in 3.3 hours with a labour cost of **£58.41**.
